MARKETING TASK DEFINITION KEY - WHAT EACH ASSIGNMENT ACTUALLY MEANS

The calendar names the assignment. The Sales Associate Marketing Playbook contains the complete script and execution SOP.

UNIVERSAL STORY STANDARD	Before ANY Story goes live: clean the background -> straighten/fix the display -> good lighting -> clear subject -> correct store @ -> location pin -> short relevant caption -> review for mistakes -> POST LIVE -> screenshot live Story -> proof to Marketing Chat. A draft does not count.
PRODUCT SPOTLIGHT STORY	ONE product or tightly related product group is the clear subject. Do not take a random wide wall photo. Product must be clean, faced and easy to see.
PRODUCT CATEGORY / SELECTION STORY	Show breadth inside ONE category. The visual should immediately communicate: 'They have a lot to choose from.' Straighten/fix the section before filming.
STORE SHOWCASE STORY	Wider shot of a strong merchandise section. Show selection. No boxes, trash, clutter, crooked merchandise or visibly dirty showcases.
STORE VIBE STORY	Sell the experience of visiting the store: clean, bright, stocked, inviting atmosphere. Use a wide visual that makes a local viewer want to stop by.
NEW MERCH / RESTOCK STORY	Only actual new or recently replenished merchandise. Merchandise must be unpacked and displayed FIRST. A picture of shipment boxes is not a finished restock Story.
PRODUCT CLOSE-UP STORY	One visually strong item gets the focus. Clean product, clean background, good angle, enough proximity to see the merchandise clearly.
POPULAR PRODUCT STORY	Feature an approved product/category customers commonly request. Do not invent 'best seller,' '#1,' or other unsupported claims.
CAROUSEL	Use multiple DIFFERENT high-quality images that tell a complete merchandise/selection story. Strongest image first. Do not post several nearly identical filler photos.
GOOGLE REVIEW MARKETING - MORNING	Ask EVERY satisfied purchasing customer for an honest Google review using the Review SOP. Provide the approved QR/link. Never tell the customer what rating to give, write the review for them, or pressure them.
TEXT AFFILIATE MARKETING - EVENING	This is the priority direct-sales customer acquisition task. Ask eligible customers throughout the busiest shift. Minimum 3 COMPLETED referrals; an attempt does not count. Use current approved offer, exact script, verification and Lightspeed process. Do not stop simply because 3 were completed.
INSTAGRAM AFFILIATE MARKETING - NIGHT	Offer the approved program to eligible Night customers. Completion requires the current required action, a LIVE Story when applicable, correct store @/location requirements, verification BEFORE benefit, and proof. Use the exact Instagram Affiliate SOP.
PHYSICAL STOREFRONT MARKETING	Complete the ENTIRE setup: required LED/open/window signs ON -> big balloon/approved temporary materials OUT -> promotions visible -> entrance clear -> employee walks outside and views store from customer/parking-lot perspective -> correct fallen/hidden/crooked items -> wide proof photo -> Marketing Chat.
STOREFRONT MORNING RESET	Bring designated balloon/temporary exterior materials IN -> return each item to designated storage -> check exterior/entrance for leftover materials or trash -> confirm correct morning storefront state -> take AFTER-reset proof -> Marketing Chat.
LOCAL FACEBOOK MARKETING	Use only approved local/community groups, approved content and current store information. Follow group rules. No random repetitive spam, misleading claims or competitor attacks.
CONTENT PREP / STORE MEDIA	Capture useful approved future media - not random photos. Clean/straighten the subject first; take clear product, selection, store-vibe or restock footage that management can actually use.

EVERY MARKETING TASK ENDS THE SAME WAY: Complete exact assignment -> self-check quality -> verify it is actually live/completed -> take definitive proof -> label proof clearly -> post to Marketing Chat by deadline -> Manager verifies.

PROOF DOES NOT MAKE BAD OR INCOMPLETE MARKETING COMPLETE. The actual assignment must meet the Marketing Playbook standard. Random content, wrong content, drafts, incomplete referrals, missing @/location requirements, or unclear proof do not count.
